

Recommended Supplies:

Students will have space to keep any personal supplies they would like to use. If they have a favorite brand of paint, brush or special ceramic tool they want to use they will be able to safely store those without anyone else to use.

As our program grows I want to prioritize using our supply budget to get the **best** art supplies for our students BUT our room takes a lot of other items to keep everything maintained. We can never have “too many” of these items in our room, we use them every day. If you are ever able to grab some of these items on sale for our classroom to use please consider bringing and donating!

- | | | |
|-------------------------------|--------------------------------------|------------------------------------|
