

AUDIO VISUAL

Handy with a video camera? Like the sound of a fully equipped studio and making videos that will be viewed by the school, the community and beyond? The Audio Video Production Pathway may be for you! The Marble Falls High School AV Program is equipped with a professional-grade movie studio and industry-standard editing and production technology. You will have access to Nikon D5300s, a professional sound studio, broadcast control room, the full Apple and Adobe software suites and more. Students completing the AV pathway will have the opportunity to earn the industry recognized Final Cut Pro certification.

If you have any questions, or would like additional information, please refer to the MFISD CTE Homepage for the AV teacher contact information.
