

COMPUTER SCIENCE & INFORMATION TECHNOLOGY

Do you want to pursue a high-demand, high-paying career? By 2020, the Computer Science and Information Technology Pathway will offer over 1 million jobs that may remain unfilled due to lack of trained professionals available to fill those jobs! The Computer Science / Information Technology Pathway will prepare you to become workforce ready to fill one of those jobs upon graduation. During your coursework in this pathway at MFHS, you will be exposed to computer hardware and software, networking, and cybersecurity. You will also have the chance to become industry certified with a CompTIA A+ certification leading to higher end CISCO certifications and Computer Programming in languages like Java, Python, and Android Application Development. These certifications can lead you to top paying jobs upon graduation. You can even receive articulated college credit for most of the Computer Science / Information Technology classes. Even Presidents of the United States of America know the importance of Computer Science / Information Technology and have put programs in place to expand our knowledge in these fields. Enroll in the Computer Technician or Computer Programming pathways and build your firm foundation for the future.

If you have any questions, or would like additional information, please refer to the MFISD CTE Homepage for Computer Science / Information Technology contact information.
