HUMAN SERVICES

Children are the GENERATION of tomorrow! We hear that said so much, but do we stop to think what it really means. Think about it! There is no greater career than one devoted to helping children grow to their fullest potential. So much of how a person succeeds as an adult is rooted in their early childhood years. Come and be part of the greatest gift you can give. Learn what makes kids tick. Become aware of how they learn. Get set to marvel at their unique view of everyday and quite complicated world events. Put your hands to work in the HUMAN SERVICES PATHWAY and get yourself ready to make the biggest difference of all: Working as a positive force in the lives of children! You will have the opportunity to earn an Early Childhood Education certification upon completion of your coursework.

For more information, please check out the Human Services Pathway on the MFHS CTE website.
