

Athletic Training Room Treatment/Evaluation Guidelines

No one, regardless of affiliation, is to be denied first aid.

1. Treatments are to be administered only to:
 - a. Student-athletes from a Marble Falls ISD High School or Junior High that are injured during certain school sponsored activities. These activities include:

| | |
|-------------------------|------------------|
| Baseball | Powerlifting |
| Basketball | Soccer |
| Cheerleading | Student Trainers |
| Cross country | Student Managers |
| Football | Softball |
| Golf | Tennis |
| Drill team | Track & Field |
| Middle school athletics | Volleyball |

All of the above must have a current physical on file in order to receive treatment.

2. Only athletes who are involved in a UIL activity will be treated.
3. Any athlete who is under the care of a physician must provide written documentation of treatment protocol, restrictions, and/or release for return to play.
4. Athletes who are members of a school sponsored activity who are injured in non-UIL activities (i.e. club sports, open gyms, recreational, etc.) will only receive first aid care until they are evaluated by a physician. The physician must provide in writing a treatment protocol for the athletic trainer to follow.
5. The Sports Medicine Staff will not treat non-athletic injuries.

NON-ATHLETIC INJURIES

Non-athletic injuries will be seen in the Athletic Training Room under the following guidelines:

1. Due to liability concerns, the student-athlete must first see a medical doctor prior to being treated by the Athletic Training Staff.
2. The student-athlete must provide a prescription for treatment/rehabilitation from the medical doctor. The information must be specific as to what type of rehabilitation is to be done.
3. No injuries that are the result of a motor vehicle accident will be seen.
